Pooja Byas

Frontend Developer

PROFESSIONAL SUMMARY

Proactive frontend developer adept in HTML5, CSS3, and JavaScript, with expertise in responsive web design. Proficient in Git for version control. Passionate about collaborating with UX/UI designers to create intuitive and scalable web interfaces. Strong problem-solving skills and a keen eye for detail.

PROJECTS

1. Big Basket clone | 🌐

HTML | CSS | JavaScript

- Independently crafted a website resembling the popular online grocery platform, Big Basket, incorporating essential elements like slides, buttons, lists, and stylish popup carts for a comprehensive user interface.
- Developed using HTML, CSS, and JavaScript, the project was successfully completed within a solo 4-day timeframe, showcasing proficiency in front-end technologies and efficient project management.

2. Social media content download | 🌐

Python

- Independently developed a content download tool for social media platforms, showcasing efficient project completion within a 5-day timeframe.
- Implemented download functionalities by collaborating with Instaloader and Pytube libraries. Efficiently utilized Instaloader for Instagram content and Pytube for downloading both video and audio content from YouTube.

3. Using API to fetch the weather of the city | 🌐

python

- Timely Weather Data Retrieval: Developed a Python weather app in 7 days, utilizing OpenWeatherMap API to fetch real-time weather information based on user-input city names.
